The express company last week charged us \$1 for bringing two boxes from St. Louis that did not weigh over 75 lbs. And they were on the road over two weeks, too. A petition, signed by all our business men, has been forwarded to Louis Houck asking him to consider the matter of running his road in here from Perryville, and another petition is to be sent to the Frisco people to see if they can not be interested in the matter of a connection with this city. We just must have another road or better accommodations from the one we have. Our town, with the immense business transacted, should have a new depot and additional train service, and our people seem determined to get relief in one way or another. Relief must and will come if we keep hustling for it.—*Fredericktown Tribune*.

The Academy of Music will have Melroy Bros. Minstrels on Friday night, Nov. 13th. The show travels in a special sleeping and dining car. The program consists of music, singing and dancing, with sketches introduced that are very pleasing to the theater-going public. Special mention is to be made of the quartette, as their singing of old-time melodies and plantation songs brings back the times of the Sunny South "before the war." The show is just as advertised, "An Evening in Sunny South," introducing a pretty first part entitled "A Coon Town Picnic," and an after-piece called "An Evening in Sunny South." Reserved seats on sale at usual place, 35c.

It pays to advertise, and we are glad to notice that there is some indication that the medical profession is beginning to realize this great truth. The light has broken in Virginia. The medicals of that great state have shaken off an unjustifiable tradition and decided that physicians may place their business cards and advertisements of private hospitals in the newspapers. This action of the Virginia Medical Society shows that the doctors have caught the spirit of the main spring of modern progress and they are no longer content to lay modestly in the rear while the patent medicine men wear diamonds and ride in automobiles at the head of the procession.—*Memphis Morning News*.

At a recent county association three teachers had classes present and conducted "model lessons" in reading, arithmetic and geography respectively. In manner of reciting on part of pupils and of questioning on part of teacher the exhibits were fine. They tested the pupils' preparation and memories well and merited the many compliments given by others present. Each failed, however, in the most important feature of a good lesson—that of teaching, of setting the pupils to investigating, of developing the subject. This is a too frequent mistake. A patron says that, as a rule, children are taught at home and the teachers content themselves with testing the result of home instruction. The mission of the school will be better fulfilled if the real teaching were done at school and the testing done at home.

Sunday morning about half-past three o'clock, as Will Lax and Arthur Williams, two colored boys, were passing up the street, they discovered flames in the interior of the Greater Bonanza. They immediately gave the alarm, an entrance was forced in the front door, and after considerable hard work the flames were finally subdued. The fire originated in a box of sawdust used as a cuspidor, and probably started from some one throwing a lighted cigar in the box. The box was about the middle of the building and the fire had burned out the flooring to the sides of the building, thence up to the roof, and the flames were just breaking through the building when the colored boys made the discovery. The work of extinguishing the flames was most unpleasant, for as soon as water was thrown on the fire the building became full of smoke and steam and the air was stifling. Numbers had responded to the first alarm, however, and the fire was finally put under subjection. It was a very narrow escape, though, and had the discovery been fifteen minutes later the building, sure, and probably the entire block, would have been doomed. Capt. Byers estimates his loss on stock by water and smoke at something over \$50, while the loss on the building is about the same. The stock and building were insured.

## Married.

In Lexington, Mo., Oct. 28, 1903, Rev. Milford Riggs officiating, Mr. F. M. Curtis and Miss Rosa A. Graendorf. Attendants, Miss Minnie King and Mr. Ernest Graendorf.

At 8:30 o'clock last evening this pretty wedding was quietly celebrated, only relatives and intimate friends being in attendance. The color scheme was white and pink, the home being most attractive.

The bride, a dainty, petite maiden, possessed of unusual beauty, never appeared more radiant than upon this occasion. Her bridal gown was of white French lawn trimmed with Mecklin all over lace and insertion, skirt of deep flounces and insertion, with a waist of Bertha tucks and insertion and white ribbon sash. She carried a bouquet of pink roses, which gave the one needful bit of coloring to an otherwise lovely costume. She was a fair picture which any man might delight to call his own. Miss King was becomingly attired in an exquisite gown of pure white, with pink sash. Her bouquet was of pink roses.

The groom is a lovely girl, of many graces and will brighten the home with those qualities of heart and mind which have endeared her to a wide circle of friends. She is quiet, and unassuming, but nature has endowed her with those qualities which go to make a true wife, friend and lovely woman.

The groom is a young man of sterling traits of character. He is an expert electrician, holding a lucrative position with the McGraw Lucal Co. He is an upright, manly and progressive young gentleman. Those who know him have only words of commendation and extended sincere congratulations to him on winning so charming a bride. For the present they will be at home to friends at the residence of Mrs. Frazier, on Franklin avenue. May every happiness attend them, is the wish of the News.—*Lexington News*.

## Statement of Facts.

If you will please allow me space in your valuable paper, I wish to correct an error which has been circulated by a person or persons who failed to secure certificates in June and have stated that I did not take the examinations in June. I perhaps would not have given the matter any attention whatever, had I heard this report but once; but it has been circulated in an adjoining county. How elastic some people's conscience must be! Just why some person or persons should attempt to do me an injustice by circulating such a report, when I have never done them an injustice, is hard for me to understand. For surely you did know that I did take the examinations in June. If you are not willing to take my word for it, write to our worthy County Board of Education.

Now, if these certain persons in question would devote as much time to the study of their text books as they have in attempting to attend to my business, they might not fall clear below the minimum, as contemplated by the law, in the next examinations. "Let facts be stated to a candid world." Respectfully,  
GERTIE FITZPATRICK.

FOR SALE.—Six room house, three bedrooms, and screened. Good cellar, well, and cistern, laundry, woodhouse, stable, etc. For terms, apply to D. A. Pilley, Ironton, Mo.

## \$5.00 Reward.

He had ticket 21 and I gave him watch ticketed 32. The watch is Waltham movement, open face, silver case, 16 size, with a gold-plated chain attached. I will pay \$5.00 for the recovery of the watch and no questions asked.

H. W. ADOLPH.  
Ironton, Mo., Nov. 11, 1903.

## Card of Thanks.

To the people of Ironton and vicinity I offer my sincere thanks for the heroic manner in which they worked, under many difficulties, and subdued the fire in my store on the morning of November 8th, and I wish to say that the volunteer fire department of Ironton has not its peer in the State of Missouri, as many buildings have been saved by their efforts on former occasions.

Respectfully,  
W. H. BYERS.
